Impact & Scratch Resistant

No matter the challenges of the road, ClearPlex® is engineered to withstand them all. Featuring the industry's only patented, cutting-edge, high-performance, scratch-resistant hard coat, boasting qualities similar to glass, ClearPlex® provides protection against scratches and abrasions, including those caused by your vehicle's windscreen wipers.

Protects Interiors & Occupants

ClearPlex® windscreen film shields both a vehicle's interior and its occupants from 99.9% of the sun's harmful UV rays, ensuring a cooler journey. Pair it with tinted automotive window film and paint protection film for comprehensive protection.

A Clear Choice

ClearPlex® provides rapid rain run-off, enhancing visibility for safer driving. Its optical clarity ensures it won't hinder your vision and seamlessly blends with your windscreen. Expertly thermally fitted to every curve of the windscreen, it forms a secure bond with the glass, guaranteeing optical clarity. Though invisible, its presence offers peace of mind and enhances your driving experience.

Avoid Expensive Repair Costs

ClearPlex® can help prevent costly repairs linked to ADAS-equipped windscreens. Insurance coverage for sensor recalibration during windscreen claims isn't always guaranteed, making ClearPlex® a valuable safeguard.

Protect your windscreen with ClearPlex and minimise costly repairs or replacements

Our Promise To You

ClearPlex® is guaranteed not to peel, bubble, crack or yellow for the warrantied life of the film. Suitable for a wide range of vehicles, including luxury and classic cars, those with ADAS windscreen technology, fleets, recreational vehicles, and construction equipment, ClearPlex® windscreen protection film introduces a revolutionary approach to safeguarding your windscreen.

Do you have a windscreen with ADAS?

Advanced Driver Assistance Systems

These high-tech windscreens can be very expensive to replace if broken. ClearPlex® can prevent expensive repair costs which can include recalibration of these systems, in addition to replacing the glass. The average replacement cost of a ADAS equipped windscreen can be up to 3 times higher than the cost of installing ClearPlex® windscreen protection film.

Protect Your Windscreen From Road Hazards

Navigating today's roads poses numerous hazards, particularly to your windscreen. From tiny stones to road debris, unexpected objects hitting your glass can result in significant damage and driving disruptions. Protect your vehicle and investment with ClearPlex® Windscreen Protection Film. ClearPlex® is the world's first optically-clear protection film for vehicle windscreens. Manufactured and distributed by Madico®, it absorbs the impact of typical road hazards, substantially minimising the occurrence of rock chips, stars, pitting, and bull's-eyes, ensuring your glass remains in pristine condition.
